

Product Safety Systems

BKP Technologies, Inc. assists pharmaceutical, biotechnology and medical device firms with the implementation/upgrade of Adverse Event (AE) case data management and regulatory reporting systems. We have nearly 20 years of experience implementing, configuring and validating product safety system solutions from all major software vendors. As of mid-2009 members of our team have been involved in more than 50 safety system implementations or upgrades for clients of all sizes.

Safety Systems Services

- Extensive knowledge of Top 3 Product Safety Systems
 - Aris Global's ArisG™
 - Oracle's (Formerly Relsys) Argus Safety Web™
 - Phase Forward's EmpiricaTrace™
- Evaluating and Selecting Safety Systems
- Installation and Upgrade of Safety Systems
- Configuration (Systems, Products, Regulatory Reporting)
- Data Migration from Legacy Systems or Previous Versions
- Electronic Submissions and E2B Gateways (EMEA/FDA)
- Validation using a Risk Based Approach
- Standard Operating Procedure (SOP) Authoring
- 21 CFR 11 and HIPAA Compliance

Our safety system implementation services are delivered by consultants and engineers with an average of 10-20+ years of experience in implementing product safety systems in regulated environments. Our team will work with your internal resources to ensure effective knowledge transfer and to provide cost effective solutions and services that meet your regulatory and business requirements.
