

Clinical Data Management Systems

BKP Technologies, Inc. assists pharmaceutical, biotechnology and medical device firms with the implementation/upgrade of Clinical Data Management (CDMS) and Electronic Data Capture (EDC) systems. We have nearly 20 years of experience implementing, configuring and validating CDMS/EDC system solutions from all major software vendors. Our team have been involved in both in-house and hosted/Application Service Provider (ASP) implementations for clients of all sizes, working collaboratively with data managers and study designers.

CDMS/EDC Systems Services

- Extensive knowledge of Commercial Off The Shelf (COTS) and custom developed CDMS/EDC Systems, including:
 - Oracle/Phase Forward's Inform GTM™
 - Medidata Rave™
- Evaluating and Selecting CDMS/EDC Systems
- Installation and Upgrade of CDMS/EDC Systems
- Development of custom CDMS/EDC Systems
- Configuration (Study Setup, Edit Checks, Case Report Forms)
- Data Migration from Legacy Systems or Previous Versions
- CDISC Import/Export and Compliance
- Validation using a Risk Based Approach
- Standard Operating Procedure (SOP) Authoring

Our CDMS/EDC implementation services are delivered by consultants and engineers with 10-20+ years of experience in implementing clinical data management systems in regulated environments. Our team will work with your internal resources to ensure effective knowledge transfer and to provide cost effective solutions and services that meet your regulatory and business requirements.
