

# Pharmacovigilance Signaling, Data Mining, and Visualization Solutions

SJ Pharma Consulting and BKP Technologies, Inc. have partnered to assist life sciences companies with the implementation of Signaling and Data Mining solutions. Together we have over 20 years of experience implementing, configuring and validating PV solutions for clients of all sizes.

## Proven Approach to Signaling and Data Mining

- Signaling and Data Mining Workshops and Training Courses
- Development of Risk Management, Signaling, and Visualization Strategies
- Signaling/Data Visualization Integration with existing Product Safety Systems
  - Oracle's Argus Safety™ and Empirica Trace™
  - Aris Global's ArisG™
- Installation of Signaling and Data Mining/Visualization tools (specializing in Tibco's Spotfire™)
- Systems Implementation
- Validation using a Risk Based Approach including 21 CFR 11 compliance
- Systems Training
- Standard Operating Procedure (SOP) Authoring

Our signalling and data mining/visualization implementation services are delivered by consultants and engineers with 20+ years of experience in implementing pharmacovigilance solutions in regulated environments. Our team will work with your internal resources to ensure effective knowledge transfer and to provide cost effective solutions and services that meet your regulatory and business requirements.
