

Computer System Validation

BKP Technologies, Inc. has extensive experience assisting life sciences clients with computerized software systems validation (CSV) and regulatory compliance of computer systems. Whether the need is for computer system validation as part of a new system implementation (in-house or hosted/cloud), upgrading an existing system, assistance with the latest 21 CFR Part 11/EU Annex 11 or GxP requirements, or an audit of your existing systems and validation status - BKP provides professional services to benefit your organization.

Systems Validation Services

- Software/Systems Development Life Cycle (SDLC) Methodologies
- Risk Assessments
- 21 CFR 11 Compliance
- EU Annex 11 Compliance
- GxP Regulations and Guidance
- ICH Compliance
- Privacy Compliance of Computer Systems
- Validation of in-house and hosted/cloud systems
- Custom in-house application validation
- Retrospective validation
- Standard Operating Procedure (SOP) Authoring
- Systems Compliance Audits
- Vendor Audits

Our validation services are delivered by consultants and engineers with 20+ years of experience in compliance of computerized systems in regulated environments. Our team will work with your internal resources to ensure effective knowledge transfer and to provide cost effective solutions and services that meet your regulatory and business requirements.
